

# WILL YOU HACK OR CRACK?

**HAVE YOU BEEN HACKING** your WiFi at home to beat your parents' attempts to get you offline? Do you hack your video-games while playing? Do you see hacking as solving a complex puzzle? Then a career at Secura might be for you.

Secura is a well-known security company with a large team of highly-skilled ethical hackers with a lot of passion to break in everywhere (legally) and we are looking for new team members!

We are looking for top talent like you with a technical or scientific background (preferably computer science or digital security).

Becoming a highly-skilled ethical hacker does not happen overnight (though partly during the night). We train you extensively in the first year and beyond.

## YOUR FIRST YEAR PROGRAM

A first year at Secura involves four training courses, two certifications, and actual client work from the second month onward to fast-track your hacking skills in web apps, infrastructure and mobile hacking!

This is only year one. A highlight of what is to come: courses like OSCP, OSCE, SANS and jobs like internal pentesting, social engineering, reverse engineering and red teaming.

## TIMELINE

## WE ARE SECURA

Secura is an independent and ambitious security assessment company that supports their clients in taking control of their digital security from people, process and technology perspectives. With a strong passion for technology, we love to share our knowledge and aim for continuous improvement in all that we do!

## SECURA AS A COMPANY

Secura has an holistic view to security assessment with five service lines while retaining commercial independence and integrity.

## HACKING EXPERTISE DOMAINS

Our Security Assessment Team (our ethical hacker team of over 30 people) is led by senior or principal consultants with specific expertise in:

web application hacking

infrastructure hacking

threat modeling

pentesting

red teaming

malware/reversing

IoT hacking

social engineering

hardware hacking

OSINT

ICS/SCADA

## MY FIRST YEAR

*Besides the technical aspect, the choice to work at Secura was an easy one, as I felt my individuality would not only be welcomed here, but of great use as well.*

*We have a diverse international group of specialists. We have created a “work hard, play hard” atmosphere. Thanks to our open door policy, joint lunches, four-eyes principle, Friday drinks etc.*

Don,  
Security Analyst

## START YOUR CAREER TODAY

We offer internships, Security Analyst positions and more senior functions. You can find our jobs functions on [secura.com/career](https://secura.com/career) and our latest internships on [secura.com/career/students](https://secura.com/career/students).
