

AUTOMOTIVE SECURITY COMPLIANCE AND CONSULTANCY

The security of connected vehicles has become a topic of increasing attention in the recent years, also in the light of demonstrated attacks on smart vehicles. To be in line with this momentum, **UNECE, the United Nations Economic Commission for Europe, published two draft regulations concerning vehicle cybersecurity**

and software updates. Secura is one of the main technical services company involved in the development as well as piloting the **UNECE regulations**. Therefore, we have the capability to support automotive manufacturers both with official regulatory audits, as well as with consultancy, preparation or workshops.

IN CONTROL WITH SECURA

Consultancy & Compliance Services for Automotive

Consultancy

Preparation, workshops or specific testing in line with the UNECE regulations

Workshops on understanding the regulation, **testing** for specific components/systems or **pre-audits** in line with the regulations' requirements. Preparing in time will create an important market advantage for once the regulations enter into force.

Compliance

UNECE regulatory audits

Official UNECE cybersecurity and software updates regulatory compliance audits, conducted as a recognized technical service.

Which Service Do You Need?

I'm interested in preparing for the UNECE regulations

I'm interested in the official UNECE audits

Consultancy Services
(workshops, pre-audits and specific testing)

Cybersecurity and Software Updates Official Audits
based on the UNECE requirements

Consultancy Services

CONSULTANCY & PREPARATION FOR UNECE REGULATIONS

- ▶ Workshops focused on the complete UNECE regulations, or specific parts
- ▶ Testing in line with the necessary UNECE cybersecurity requirements, for either a subsystem, a set of systems or the whole vehicle. Including the delivery of necessary testing evidence for the official UNECE audit
- ▶ Pre-audits focused on either cybersecurity or software updates regulations, including clear gap analysis report and follow-up discussion/support in addressing the gaps

Compliance Services

OFFICIAL UNECE AUDITS

- ▶ Cybersecurity and/or software updates audits conducted in line with the UNECE regulations
- ▶ Official audit report, performed by recognized technical service
- ▶ Base for obtaining the cyber security/software updates management system certificate, or the specific vehicle type certificate
